EDUCATION

University of Maryland - College Park

(Graduating Decemeber 2025)

- **Major:** Information Science
- **Relevant coursework completed as of 2024:** Object Oriented Programming, Databases, Web Design, and Calculus
- **Clubs:** IM Volleyball, IM Basketball

Frederick Community College

(Graduated December 2023)

- **Associate Degree in Computer Science**

PROFESSIONAL EXPERIENCE

Shuttle-UM *Shuttle Bus Driver*

May 2024 – Present

- Transported students, faculty, and staff across campus routes while maintaining safety and punctuality.
- Delivered high-quality customer service by assisting passengers and resolving transportation-related inquiries.

Daly Computers *IT Intern*

Jun 2023 – Aug 2023

- Provided technical support for a variety of hardware systems, ranging from individual laptops to enterprise-level servers.
- Collaborated with team members to troubleshoot IT issues and implement support solutions in real-time.

TECHNICAL SKILLS

Skills JavaScript, Python, R, MySQL, HTML, CSS, Jupyter Notebook, Git, React

Tools Eclipse, VS Code, Github, Microsoft Office Suite, Excel

HIGHLIGHTED PROJECTS

Travel Guide *Full Stack Development*

- Built a full-stack recommendation platform using **React**, **Supabase**, and **Google Maps API** to suggest personalized places in new cities.
- Integrated **Gemini AI** to auto-tag user-favorite locations and match preferences with new destinations based on activity, mood, and interest.
- Designed and implemented an overlay algorithm to compare user history with new environments, delivering smart, location-aware suggestions.

Penny Stock Analysis *Python Development & Data Analysis*

- Conducted a comparative analysis of penny stock investment strategies recommended by financial institutions versus user-generated posts from the r/pennystocks subreddit.
- Developed Python scripts to scrape Reddit content using **PRAW** and news sentiment using **BeautifulSoup**, processing data from sources like Yahoo Finance, Nasdaq and Polygon.io
- Utilized **Pandas**, **NumPy**, and **Matplotlib/Seaborn** to clean data, perform ROI calculations, and visualize stock performance trends across advice sources.

CORE STRENGTHS

- **Problem-Solving:** Strong ability to troubleshoot and resolve technical issues and able to adapt to any situation.
- **Time Management:** Capable of managing multiple responsibilities across academics and work.
- **Bilingual:** Effective verbal and written communication in English and Sizang.
